## THE ERRING.

Think kindly of the erring!  
Ye know not of the power  
With which the darkest temptation came,  
In some unguarded hour.

Ye may not know how earnestly  
They struggled, or how well,  
Until the hour of weakness came,  
And sadly thus they fell.

Think kindly of the erring!  
Oh! do not thou forget,  
However darkly stained by sin,  
He is thy brother yet.

Heir of the self-same heritage,  
Child of the self-same God;  
He hath but stumbled in the path  
Thou hast in weakness trod.

Speak gently of the erring!  
For is it not enough  
That innocence and peace are gone,  
Without thy censure rough?

It is sure to be a wry lot  
The sin-crushed heart to bear;  
And they who have a happier lot  
Their chidings well may spare.

Speak kindly of the erring!  
And thou mayest lead them back,  
With holy words and tones of love  
From misery's thorny track.

Forget not thou hast often sinned,  
And sinful yet may be—  
Deal gently with the erring one,  
As God has dealt with thee!

A man, who is undoubtedly a lover of the weed, seeing the statement going through the papers, gets off the following:

"It has been estimated that the cost of washing linen that might just as well be worn two days longer, amounts to enough in this country to more than defray the expenses of the American Board of Foreign Missions."

"The expenses of buttons on the backs of coats, where they are of no earthly use, is equal to the support of all our orphan asylums."

"It is estimated that the value of old boots thrown aside, which might have been worn at least a day longer, is more than enough to buy a flannel night-gown for every baby in the land. Also, that the cost of every inch on the full shirt collars of our young men, is equal to the sum necessary to put the Bible in the hands of every Patagonian giant."

Mrs. A. J. Flinn left her child in the care of a negro girl, in Louisville, the other evening, while she attended a boarding house ball. Next day the child died—poisoned by opiates administered by the nurse to keep it quiet.

## SUPERSTITION IN IRELAND.

A gentleman who resided for a time in the south-eastern part of Ireland, uses the following language concerning the popular superstition of that section: "A most remarkable fact is the unanimity of opinions of the educated and the most humble or illiterate persons. When any popular custom, tradition, or, I may say, superstition, exists, all hold fast to the same belief, no matter how absurd. I speak of the laity generally, but do not include the clergy of any sect or denomination. The following jots may be interesting. When a cat scratches the legs of a table or chair, it is a sign of rain; but if 'tabby' transfers her nails to the stump of a tree, it foretells a storm. The appearance of a rainbow at night or evening is a sign of fair weather; in the morning it is for storm, and at midday storm and rain; and if in autumn, thunder and whirlwinds may be expected to follow. The quacking of ducks in the morning is a sure sign of rain, as is also the chattering of a collection of sparrows in the evening. Should a robin red breast enter a house, hard weather, snow, frost, etc., may be expected to follow soon. The robin is held in great veneration by everyone, and it would be considered a serious offence to kill one willingly. It is almost a domestic bird in the places I mention. It foretells a storm to see pigs running about a farmyard with straws in their mouths; and to hear dogs crying, which they do most horribly sometimes, notifies a death. On the lower or upright portion of the frame of almost every house-door—the chief entrance—may be found nailed an old horse-shoe, or portion of one, picked up on some neighboring road. This is said to be very lucky, and prevents fires and furies from visiting the house. It is considered particularly unfortunate for a farmer or his wife if they should, on a May morning, meet a hare, as that animal is said to 'take away the milk from the cows, should the master or mistress of the 'lower herd' cross its path on the morning in question."

## STRONG SUSPENDERS.

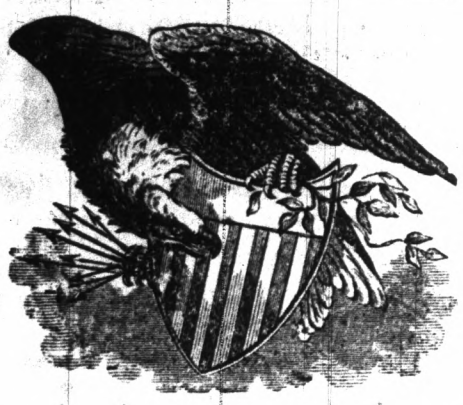

"When I lived in Maine," said Uncle Ezra, "I help to break up a new piece of ground. We got the wood off in the winter, and early in the spring we began plowing on't. It was so consarned rocky that we had to get forty yoke of oxen to one plow—we did, faith; and I held that plow more'n a week. I thought I should die. It e'en a most killed me, I vow. Why one day I was hold'n the plow hit a stump which measured just nine feet and a half through, hard and sound white oak. The plow split it, and I was going straight through when I happened to think it might snap together, so I threw my feet out, and had no sooner done this than it snapped together, taking a smart hold of the seat of my pantaloons. Of course I was tight, but I held on to the plow handles; and though the teamsters did all they could, that team of eighty oxen could not tear my pantaloons, nor cause me to let go my grip. At last, though, after letting the cattle breathe, they got another strong pull together, and the old stump came out about the quickest. My wife made the cloth for them pantaloons, and I haven't worn any other kind since." The only reply made to this was: "I should have thought it would have come hard upon your suspenders—powerful hard."—Sam Slick's Traits of Human Character.

## WAR.

Give me the money that has been spent in war and I will purchase every foot of land on the globe. I will clothe every man, woman and child in attire of which kings and queens would be proud. I will build a school house on every hill side and in every valley over the earth; I will build an academy in every town, and endow it; a college in every State, and fill it with able professors; I will crown every hill a place of worship, consecrated to the promulgation of the gospel of peace; I will support an able teacher of righteousness, so that on every Sunday morning the chime on one hill should answer the chime of another around the earth's wide circumference; and the voice of prayer and the song of praise should ascend like a universal holocaust to heaven.—Rufus

QUINCY, PLUMAS CO., CAL.  
SATURDAY, MAR. 7, 1898.

FOR PRESIDENT,  
**HENRY H. HAIGHT.**  
Subject to decision of the National Democratic Convention.

**THE REASON.**—No mail from below has been received in this town since Tuesday of last week. The latest papers from Marysville and Sacramento are of date, Feb. 21st. We delayed the publication of our paper for several hours, hoping that the mail would arrive in time for us to give the latest news—but it has not arrived up to the hour of going to press, 8 p.m.; hence the scarcity of news, etc. in this number.

**P. S.**—A report is in circulation, that articles of impeachment against the President have been presented to the Senate.

**ACQUITTED.**—In the late murder case at Stockton, of the People, etc., vs. William Ranney, the verdict was, not guilty.

**A SWORN STATEMENT.**—Judge Pratt has decided that the Assessor is the party who should assess the value of property and not the property owners.

Any enterprising young man, who will marry a Gipsy, at Neenah, (Wis.) can obtain ten thousand dollars with her. So says a Wisconsin paper.

The Pacific Mail Steamship Company have reduced the wages of their employees 25 per cent. in consequence of the active opposition and dull times.

A woman named Theana Ambrurst, is now under arrest in Detroit, upon the charge of having put her infant child in a stove, and burning it alive.

All soils upon which clover and grass grow must contain lime, either naturally or by artificial application. It makes very little essential difference, whether this is added as limestone, shell lime or marl.

To preserve cut flowers, put a pinch of nitrate of soda in the water every day when it is changed. This will preserve flowers for a fortnight. Nitrate of potash in powder has nearly the same effect.

A shrewd negro, claiming to be an agent for the "Queen's Society," in London, has been swindling the ignorant negroes of the South most outrageously by "loaning them money," on condition that they pay interest in advance.

Crystal Park is reported at this time as being in a flourishing condition. There are about 5,000 Chinamen at work on the railroad in Nevada. Crystal Peak has a Chinese population of about 1,000, composed of merchants, gamblers, butchers, freighters, etc.

**BARGAINS.**—The attention of our readers is called to the advertisement of Mr. Henry Robinson, of Taylorville, which appears in another column. Mr. R. intends closing out his business in Taylorville, and is desirous of selling his residence, a number of wagons, stock of lumber, etc.

**SCURVY AND POTATOES.**—Doctor Stone writes to the London Times, that cooked potatoes are efficacious against scurvy as raw ones; a fact not generally known, but ascertained beyond a doubt by Dr. William Baly, late physician to the Millbank Penitentiary, where scurvy at one time was not uncommon. The disease wholly disappeared on the addition of a few pounds of potatoes to the weekly diet.

**"A LITTLE FARM WELL TILLED."**—Remember that 50 acres actually worth \$100 per acre is worth more than 100 acres at \$50 per acre; because one-half the work expended on the first will raise as much as the whole amount expended on 100 acres. In the same way with stock, it is better to fatten five head of steers well, than ten only half done, because they will sell for more, and you will also save the interest on one-half the investment.

**INFORMATION WANTED.**—Of John Kelly, formerly a member of Company H, 10th Regiment, stationed at Fort Garland. Address, Alex. Kelly, Morning Call office S. F.

Of Henry Greenwood, of Halifax, England. He formerly lived at Sacramento. Address, Abel Toothill, S. F.

Of Christian Finkleson, of Ninesheik County, Iowa, when last heard from he was in Shasta county. Address, Mrs. Berte Finkleson, Decorah, Iowa.

Of Thomas Rowan, when last heard from he was in San Francisco. Address, Daniel Rowan, 127 Pacific Street, S. F.

Of Lot Flanagan. Address, Ann Smith, 44 Telama Street, S. F.

Of Peter Herbert, when last heard from he was in Oroville. Address, Edward Herbert, Box 1346, S. F.

Of George How, aged 20 years. Address, Mrs. Hitchcock & Hay, S. F.

Of George Butler, late of Sidney. Address, Falkner Bell & Co., S. F.

**THE STATE CAPITAL.**—The S. F. Times, in speaking of the removal of the National Capital from Washington to the Valley of the Mississippi, says: "It is a part of prudence for the present to leave the Capital where it is. The advantages to be derived from a removal are much more than counterbalanced by the loss of money so largely expended in public buildings; by the inconvenience of the removal of the records of the Government, and by the immense expense to be incurred in providing suitable accommodations elsewhere. Besides all which, once started the seat of government in motion, and it is hard to say when and where it would find a permanent resting place."

**AS OUR MOTHERS DO.**—We were considerably amused the other evening at three little girls playing among the sage brush in a back yard. Two of them were "making believe keep house" a few yards distance from each other—neighbors as it were. One of them says to the third girl: "There, now, Nelly, go to Sarah's house and stop a little while and talk, and then you come back and tell me what she says about me; and then I'll talk about her, then you go and tell her I say, and then we'll be mad and won't speak to each other just as our mothers do, you know. O, that will be such fun."

**TAXATION IN NEW YORK STATE.**—The Mayor of Albany, has recently had a table prepared of the rate of taxation in the chief cities of New York, by which it appears that, out of eleven cities, New York city stands tenth. Rochester is the highest, being taxed \$6 on every \$100; Oswego next, at \$4.86; Troy 3d, at \$4.47; Syracuse 4th, at \$3.78. Albany, Brooklyn, Schenectady, Auburn and Poughkeepsie are nearly alike, averaging \$3.50. Then comes New York, and Hudson sets up the list at \$2 on \$100.

**CLEANING KNIVES.**—A correspondent of the Country Gentleman, says: A small clean potato, with the end cut off, is a very convenient medium of applying brick dust to knives, keeping it at about the right moisture, while the juice of the potato assists in removing the stains from the surface. We can get a better polish by this method than by any other we have tried, and with less labor.

The day after the drawing of the quarter-million prize in the Vienna lottery the report was set all at that the fortunate individual was a female pastry cook in the Archduke Charles Hotel. She was neither young nor fair, but yet received a dozen offers of marriage in the course of one afternoon. She can make her selection at her leisure, as she did not draw the prize.

Reader, do you know that every column of a newspaper contained from ten to twenty thousand distinct pieces of metal, the misplacing of any one of which would cause a blunder, or typographical error? With this curious fact before you, do you not wonder at the general accuracy of newspapers? Knowing this to be the fact you will be more disposed, we hope to excuse rather than magnify errors of the press.

Wood county, Ohio, is digging a ditch thirty-seven and a half miles long, eighteen to twenty feet wide on the bottom, thirty to forty feet at the top, and from two to six feet deep. It has sixty-seven and a half feet fall, or less than one foot to the mile. It will drain 60,000 acres of the "Black Swamp," and bring them into cultivation.

Henry Bowman, a young man of 21 years of age, was found in the barn of Benjamin Pierce in Weston, Mass., a day or two since, where he says he has lived for a year, eating vegetables furnished the cattle. He says he is discouraged, and doesn't know but he is insane. He has been sent to the Ames-louse at Tewksbury.

The Wilmington (N. C.) Journal estimates the peanut crop in that section at 100,000 bushels.

A splendid cotton plantation of two thousand acres, in Franklin county, (N. C.), was sold to \$2.05 per acre.

**SWEETWATER MINES.**—A correspondent of the Enterprise, says: It was expected that a great rush would be made there in the spring, but it would be soon enough to get to Salt Lake about the middle of March. The road to South Pass City to Oregon Springs, 25 miles distant, was impassable for animals on account of snow drifts, but would probably be open by the 1st of April. Freight on hand-sleds over this distance, costs 15 cents a pound. It costs a dollar to bring letters from Fort Bridger and 50 cents to send one out. The new county of Carter had been organized, with Hubbell as County Recorder, and John Murphy, an old Reese Riverite, as Sheriff. South Pass City, located at Willow Springs, had about 75 houses, and it was estimated that there were 600 to 700 persons resident in the country. There are two stores in the District, and the prices are high. Flour is \$35 a hundred; bacon, \$1 per pound; butter, \$1.50; sugar, \$1.50; nails, \$1; wooden shirts, \$10 each; picks \$15; tools, \$20 a pair, and everything else in proportion. Cocktails were 25 cents, but would soon be 50 cents. There were no new hats in the market, and old ones being scarce, were worth \$10 each, if wearably clean. The horses of the miners were all in Wind River Valley, and would do well if the Sioux and Chyrennes did not get them early in the spring.

**KONDITION OF KALIFORNIA.**—It is said that curious cases count the coin of Kalifornia by klanishells fall, and this konputation they kall kommercial kur-rency in that kresekent kline. Consider the krime k-kommitted by such a krael, k-kollhearted k-krowd, who k-kaim by k-konquest—and k-kalkulate the kost of a k-kar go of k-kabbage, k-krackers, k-kream k-kakes, k-kront, k-kolera k-kodfish, k-kalomel, and k-konfektioneries to keep such a k-krew from k-kutting each other's k-kollars—k-knoth-ing but k-kristians k-kould k-kompel them to keep k-kool. O, k-konscience! one's blood runs k-kold to k-kalkulate the k-kondition of such a k-konfess k-konglomerated k-kraiven k-khearted k-kongregation, who k-kwit their k-knative home to k-kollect k-ksmall k-krunns in k-kride k-kradles, k-kreating k-kwint-essence in every k-kountry. K-kwery—will not a k-karge number k-korrupt the very k-kriminal k-kode-itsell—k-kapsize the k-konstitution—k-khub together—k-knegotiate with k-knotorious k-karacters to k-karry k-korruption through every k-kwarter? At this k-kritical k-krisis our k-korrespondent k-kaved k-klean in.

The Arabs possess a wise practice in proceeding for a divorce. When married people seek a separation, the Cadi orders them to live for some time with a discreet and austere man of the tribe, that the latter may examine their lives and see on which side blame lies. This elderly man makes a report at the expiration of the appointed time, and this report is the foundation on which the Cadi builds his judgment of divorce. Experience has demonstrated that there is no better method of restoring peace in families. The husband and wife, put thus on their good behavior, resume the manner of courting days. Each strives to be more amiable than the other, to convince the "elder of Israel" that it is not this one's fault if the honey-moon changed its quarter. Old love is awakened, and the pair that went to the approved man's tent snoring like cat and dog, return home cooing like doves.

## LOCAL ITEMS.

**SATISFACTORY.**—The apology tendered by the new Editor of the National in last week's issue, was "perfectly satisfactory."

**DEPUTY.**—We learn that Mr. J. C. Boring will receive the appointment of Deputy Sheriff and Collector, for Goodwin Town ship.

**SNOW.**—It being something so unusual in this section, we hereby chronicle the fact, that we have been visited by a severe snow storm, or rather a series of storms during the past fourteen days. The depth of new snow upon the mountains average about six feet.

**MAN KILLED.**—On Tuesday last, a man was killed by a snow slide on the hill at the head of Canon Creek, near the Slate Creek House. He was on his way to the head of Nelson, accompanied by his partner—the latter escaped. His body was recovered on the following day. We did not learn his name.

**WASHINGTON HILL.**—The American Co., (Brown, Fiss & Co.), are working twelve men in their claims, and are making from \$6 to \$10 per day to the land. The Union, (Bleck & Co.), are running an incline into the hill, and are making good wages. The Company is working seven men. There is no other companies at work upon the hill at the present time.

**LA PORTE STAGE ROBBERED.**—Saturday morning, the 25th ult., the La Porte stage was stopped on the American House Hill, two miles from La Porte by two robbers, and about \$10,000 belonging to Wells, Fargo & Co.'s Express was stolen. There was no passengers in the stage at the time. The men were disguised, and at latest accounts no clue had been had of the thieves. We hear that certain parties are suspected, but that no arrests have as yet been made.

**SCHOOL.**—The regular Winter term of the District School in this town, closed last week. We are pleased to learn, however, that the school will be continued for two months longer, with Mr. Wilson as Teacher. There being no public money on hand, the Trustees were unwilling to engage a teacher to be paid for out of the School Fund, and consequently, they will be obliged to raise the funds necessary to pay the teacher, by rate bills. The amount is fixed at \$2 50 per month for each scholar.

**POORMAN'S CREEK.**—Turner has recently struck another good pay streak in his claim. Keeler & Co. are at work drifting in their claims, and are making from \$6 to \$10 per day to the land. Bradley & Co., who have been running a tunnel during the past three months, have at last struck a good prospect. Moore & Co. found a 4 ounce chunk in their claims a few days since—their claims are paying good wages. All of the hydraulic claims have been lying idle for some time past, but the owners are now at work preparing for the coming water season—which, from present appearances, promises to be an excellent one. There is nearly 13 feet of snow on the mountains around Poorman's and Sawpit. Lathier & Co. intend opening up their old tunnel claims again in a short time. Evans & Co., in the old "Custer Shot" claims, are averaging about \$4 per day to the land. There is neither a saloon or store open on the creek at present.

**SAWPIT.**—The trouble between the Union and New York companies, in regard to the air tunnels, has been amicably settled. The Buckeye Co. is working sixteen men at present, and the claims are paying well; the Co. own their own water and wash up regularly every week. The New York Co. are working nineteen men and are taking out a large quantity of pay dirt; they will not be able to wash up for a couple of months. The Union Co. are working seven men and are also getting out good pay dirt. But three men are working in the Franklin claims at present; they are making about \$4 per day. The Eagle Co. is working thirteen men, and they are filling the dump house with rich pay dirt, which they will not be able to wash up until about the 1st of May. The Mountaineer Co. is still at work running a bed rock tunnel; they are working day and night and are averaging about 16 feet per week—the tunnel is in nearly 900 feet, and the Co. is in hopes of striking pay ground some time during the coming Summer.

**POLLARD & Vandergriff.** in their old tunnel claims at Richmond Hill, are taking out big pay. Hogan & Co., and the other hydraulic claims have fitted up and are ready to commence piling as soon as a supply of water can be had.

**SCHOOL REPORT.**—To the Teacher of the District School in this place, Mr. W. R. Wilson, we are indebted for the following report for the month of February:
